Project Updates for Next Week

Harrisonburg, VA – The City of Harrisonburg will be delaying the sewer line replacement project that was scheduled to begin next week on Collicello Street.

A separate sewer line has shown signs of failing within the past 24-hours and is in need of a more immediate replacement. Approximately 160 feet of sewer line, in the 0-100 block of South Dogwood Drive, will be replaced at the beginning of next week. This line will be upgraded from a four inch clay line to an eight inch line, made from PVC material.

While the project on Collicello Street remains a priority, it has not shown immediate signs of failure like the sewer line on Dogwood Drive recently has.

The Collicello Street project will resume within the next two weeks, once the section of line is replaced on Dogwood Drive.

Residents are encouraged to contact the Public Utilities Department with any questions or concerns at 540-434-9959.

The City of Harrisonburg is centrally located in the Shenandoah Valley of Virginia. It is home to approximately 50,000 people. More information about the City of Harrisonburg is online at www.HarrisonburgVA.gov.
